

About ISL

The Indiana Soccer League was established to provide a premier level of competition throughout the state of Indiana. The Indiana Soccer League charter is granted by Indiana Youth Soccer, the governing body for the state of Indiana for US Soccer and US Youth Soccer.

The Indiana Soccer League has a primary focus of creating competitive league play for U13 and older youth teams at a Premier, 1st Division and 2nd Division level. Additionally, the Indiana Soccer League, working with the local leagues, will establish state-wide competition rules and a promotion & relegation system for all levels and ages of competitive soccer in Indiana. This will result in a League Structure consistent throughout the state of Indiana.

The Indiana Soccer League is operated by a league Commissioner, with support from an Advisory Board, Technical Committee, and many local and regional volunteers.

The Indiana Soccer League should, and will be a model of behavior and operational excellence for the entire state. The league has adopted a Code of Conduct that every team participating in the league is required to complete. This Code of Conduct is the foundation for a state wide initiative to require a similar code for all competitive team play.

The Indiana Soccer League wants all teams throughout the state of Indiana and the surrounding areas to consider applying for league play. Since this is a state-wide league, expectations should be that your team will be playing at facilities in every part of Indiana. All teams will be given equal consideration for hosting games should they have adequate facilities. To host games for Indiana Soccer League, please complete the Host Site application.

Advisory Council

The Indiana Soccer League Commissioner has the support of an Advisory Council. The Advisory Council is responsible for representing the state of Indiana in establishing playing rules, policies, and procedures for Indiana Soccer League.
