

Indiana Soccer Presents:

The "Rene Meulenstein Academy"

Saturday, February 25th, 2011 1:00-4:00pm
The Indiana Soccer Workshops
@ Renaissance North Hotel

Indiana Soccer Presidents and Directors of Coaching are invited to hear Erwin van Elst, discuss and demonstrate the RMA approach to teaching youth the correct technical skills to take their game to the next level.

**** A lite Lunch will be served prior to the start of the presentation.**

A \$139.00 value
for ONLY \$15.00

What is the RMA ?

The vision of Rene Meulenstein, first team assistant coach at Manchester United, is basic and straight forward; "the team with the most creative players and players who can dominate the 1vs1 situations all over the field will be the most successful team in the world". Rene's vision and philosophy has proven right many times over with the confidence given to him by Sir Alex Ferguson and the continued success of Manchester United.

This vision is now being carried out via The Rene Meulenstein Academy (RMA). When analyzing the game of soccer we can clearly see how important it is to have players on your team with the ability to dominate the 1vs1 situation. Attack minded, crafty players can make the difference. Yet it appears that during everyday club training very little attention is giving to this critical feature. The Meulenstein Academy will go deeper into the various 1vs1 situations, giving each coach important insight into the movements, when and where they can be used and how they affect the game.
