

“UNITED”

Items to keep in mind while watching your child play soccer:

- **Understanding**-Remember that a young referee is somebody's child.
Remember that the children playing are not miniature adults. They are going to make mistakes.
- **Need for encouragement** Stay away from PGA. (Post Game Analysis)
Remember it's just a game! (Unconditional Love)
- **Integrity**-Be a role model for your child. Sideline coaching creates confusion and suppresses a child's creativity.
- **Together** help create a better environment for all.
- **Enjoy** the game. Be thankful your child can and wants to play because before you know it, your child's playing days will be over.
- **Development** and fun over results. Real success in youth sports is not measured in wins and losses but will be realized 20 years later.
