

To: ODP (Olympic Development Program) Families

From: Coach Sheely and Joy Carter

We are excited to get this next year of ODP started. To those players in high school, we will see you in December and good luck to you and your teams. We have already been busy with our Indiana Development Program hosting District Training throughout the state with over 300 players attending so far. We have been and will continue to be at tournaments across the state looking for those players who might fit well with ODP.

A few things for this upcoming year. We will continue with our Team Genius Evaluation and all players will receive one at the end of our season, July 2023. Coaches will be evaluating players throughout the year, so it is a wholistic evaluation and not just a one event or one training session evaluation.

We will once again host Illinois and Kentucky in friendlies as well as attend the Memphis Subregional. Next summer's Midwest regional event will take place in St. Louis. Each of these events will be a player selection process. More info will be made available as we get closer to each event.

This year we will be adding Techne for our ODP players. This is at no additional charge for our families. Feel free to check out the [Techne Futbol Link](#) with more information being sent out soon.
