

Indiana Soccer League (ISL) Book of Reports, January 2021 – George Perry, Commissioner

As we all know, we were not able to play most of the Spring 2020 season. Indiana Soccer tried to take the lead to help our membership through this challenging time. Steve Franklin kept our clubs in touch with options their players had for development and training while at home. The at home training videos linked to our website were extremely important for our membership.

Once Indiana reached the stage where players could begin training with their teams, we implemented protocols for member clubs so they could restart in as safe an environment as possible. Our clubs did an excellent job of educating their coaches and families on the necessity to follow the protocols.

ISL was able to play the Fall 2020 season; only missing 5% of the ISL travel teams that participate in the previous fall.

Registration is positive for this coming Spring 2021. Depending on the # of ECIYSL & NESSL teams and the exact # of CNC teams that register, the spring of 2021 could be as good as last spring; approximately 1155 teams.

	Fall 2018	Spring 2019	Fall 2019	Spring 2020	Fall 2020	Spring 2021
GLC/MWC	9	97	11	83	7	85
