EVERY KID DESERVES A POSITIVE SPORTS EXPERIENCE!

PCA is a nonprofit organization working to unlock the life-changing power of sports for all kids. Over the last 25 years, PCA has grown to become the only non-profit nationally committed to making youth sports positive, equitable, and accessible for participants regardless of social or economic circumstance.

PCA's MISSION

To change the culture of youth sports so that every child, regardless of social or economic circumstance, has access to a positive youth sports experience.

PCA's VISION

A world where every young person benefits from a positive youth sports experience with a coach who inspires them to become the best version of themselves in the game and in life.

POSITIVE IS POWERFUL!

A positive approach helps youth get the most out of sports, which is what coaches, parents, and the athletes themselves want.

Encouraging athletes with positive reinforcement helps them hear and heed the necessary corrections.

With truthful, specific praise and constructive criticism, athletic performance improves and so do the chances that ***kids stick with sports longer and learn all the valuable life lessons inherently available through organized competition.***

Academic research and real-world scoreboard results from millions of coaches, parents and athletes that PCA has trained and educated prove what the pro and college coaches on PCA's National Advisory Board already know: ***Positive is powerful***

Money Vehicle is an exclusive financial literacy course created by Certified Financial Planner and former NFL player Jedidah Collins that builds strong money habits early and unlock students' full economic potential.

Courtesy of presenting sponsor Tru Direction, Inc., the Money Vehicle course open through August 2026 is **FREE for participants ages 12-19** who are players with Indiana Soccer member clubs or registered members of the Indiana State Referee Association.

Money Vehicle is dedicated to closing the financial literacy gap in the United States by providing middle and high school students with an engaging, entertaining, and empowering personal finance program.

Students in the module-based curriculum start by answering the first 10 questions they will have on their financial journey, and from there take the first actions that will drive their plan forward. Participants will learn:

- How to use money as a tool to build wealth
- Why financial habits matter more than talent
- How to budget, save, and invest
- The difference between wants vs. needs

2 Grand Prize Winners = 1 share of Eli Lilly Stock
2 Second Prize Winners = 1 share of Cummins Stock
2 Third Prize Winners = 1 share of Elevance Health Stock

Each module in the Money Vehicle program ends with a quiz, while each chapter will conclude with a test.

As modules are completed, students will earn entries into a sweepstakes to win a stock option from one of three of Indiana's most successful companies – **Eli Lilly, Cummins, and Elevance Health!**

The online curriculum will close on August 15, 2026.

Sweepstakes for stock options will be held on April 30 and August 30 – meaning the earlier students participate in the course, the more chances they'll have to win!

For more details on this **FREE** opportunity for Indiana Soccer members ages 12-19, including how to register, visit **soccerindiana.org/financial-literacy**
